Innovative Approaches to Understanding Our Most Pressing Public Policy Issues

APDU

September 13, 2017

Data as a Strategic Asset (DASA)

Initiative to increase knowledge about how states can leverage data for better decision-making

How States Use Data for Decision-Making

- Improve service delivery
- Manage resources
- Examine policy and program effectiveness
- Develop policy responses to complex problems

Solving Complex Challenges

“There are dozens of great policy questions that we can now ... use data to help move forward.”

– Roderick Bremby, Commissioner of the Connecticut Department of Social Services,
September 2016 Pew interview

Delaware - Education

Virginia - Veterans

Massachusetts - Opioids

Wisconsin - Foster Care
